

RITIKA KOLLURI

Bothell, WA, USA | +1 (316) 371-3882 | kolluriritika@gmail.com | [linkedin.com/in/ritika-kolluri-5536441b4](https://www.linkedin.com/in/ritika-kolluri-5536441b4)

PROFESSIONAL SUMMARY

Data Analyst with 1.5+ years of experience in SQL, Python, Power BI, dashboard development, and process automation. Skilled in data analysis, ETL, KPI reporting, and business intelligence with a proven ability to transform complex datasets into actionable insights. Master's in Data Science with expertise in statistical analysis and data-driven decision-making.

TECHNICAL SKILLS

Programming & Analytics: Python, SQL, Statistical Analysis, Data Modeling

BI & Visualization: Power BI, KPI Dashboard Development, Business Intelligence, Data Storytelling

ML & Data Science: Scikit-learn, TensorFlow, Predictive Modeling, Feature Engineering

Data Engineering: ETL Pipelines, Data Cleaning, Data Governance, Root Cause Analysis, Trend Analysis, EDA

Cloud & Tools: Excel, Git, Jupyter Notebook, VS Code, Agile/Scrum

PROFESSIONAL EXPERIENCE

Wichita State University (Library Technical Services)

January 2025 – May 2026

Graduate Assistant

Wichita, KS, US

- Analyzed and maintained operational datasets, ensuring data accuracy and integrity across library systems.
- Developed Excel-based reports and dashboards to track workflows, identify trends, and support data-driven decision-making.
- Performed data cleaning, validation, and process improvement activities to enhance reporting efficiency and data quality.

Deloitte USI

June 2023 – July 2024

Analyst

Hyderabad, India

- Built Power BI dashboards tracking KPIs for 5+ business units, enabling data-driven decisions for 20+ cross-functional stakeholders across the teams.
- Wrote complex SQL queries to extract, manipulate, and analyze structured datasets, reducing data retrieval time by ~25% across multiple reporting initiatives.
- Developed Python automation workflows for data preprocessing and reporting, reducing manual effort by ~35% and improving delivery turnaround for recurring reports.
- Conducted exploratory and quantitative analysis on 50K+ records to identify workflow trends, reporting inconsistencies, and process improvement opportunities.

PROJECTS & HACKATHONS

Water Quality Data Pipeline & Analytics System — Capstone | Python, ETL, Power BI, SQL

- Built an ETL pipeline integrating 10K+ environmental and socioeconomic records; applied Python and SQL for data cleaning, feature engineering, and statistical analysis to identify pollutant trends and regional risk patterns.
- Developed Power BI dashboards with geospatial visualizations identifying nitrate hotspot regions and key pollutant drivers, communicating actionable insights through data storytelling.

Data Science Salary Prediction Analysis | Python, Scikit-learn

- Analyzed salary datasets to uncover compensation trends across experience levels and employment types, delivering insights through visualizations and stakeholder-ready reports.
- Built and evaluated Linear Regression, Ridge, and Decision Tree models; applied feature engineering techniques improving predictive accuracy by ~15%.

Data Visualization Dashboard — Heartspring | Python, Power BI, EDA | Hackathon — May 2025

- Developed KPI dashboards and visual analytics under a fast-paced hackathon environment, applying EDA and data storytelling to communicate actionable insights.
- Identified key trends from structured datasets and presented findings to judges, demonstrating ability to deliver under tight deadlines.

EDUCATION

Wichita State University

Aug 2024 – May 2026

Master of Data Science

GPA: 3.90 / 4.0

Malla Reddy Engineering College for Women

Aug 2019 – May 2023

Bachelor of Technology, Information Technology

CGPA: 9.12 / 10
